Mednarodni dan spomenikov in spomeniških območij bomo proslavili z odprtjem razstave, ki skozi nabor preteklih in sodobnih projektov izpostavlja pomen sodelovanja, potrebnega za to, da hiše, ki so preživele prvotno rabo, lahko zaživijo nova življenja. Razstava predstavlja prenovljene zgradbe v Sloveniji, ki so nepogrešljiv del zgodovine mest in naselij ter nosilec lokalne ali celo nacionalne identitete. Dejstvo, da so danes ohranjene in žive, je rezultat skupnega dela mnogovrstnih poklicev, predvsem pa arhitektov in konservatorjev.

Vljudno vabljeni!

We are celebrating The International Day for Monuments and Sites with the opening of an exhibition that uses a set of past and present projects to highlight the importance of the cooperation needed to ensure that houses that have survived their original use can start living a new life. The exhibition presents renovated buildings in Slovenia, which are an indispensable part of the history of cities and towns and are the cornerstones of local or even national identity. That fact that these buildings are preserved and alive today is the result of the joint work of multiple professions, and especially of architects and conservators.

Welcome!
